SUMMARY

Web Application Developer with 1 year of experience in MERN. Proven ability to design, develop, and deploy secure, high-performance applications on the cloud. Experienced in creating and integrating solutions with the latest cloud technologies.

EXPERIENCE

Cloud Application Developer
Blazeclan Technologies   **June 2022 - Present, Pune**

· Successfully completed rigorous training in MERN stack and cloud technologies.
· Independently developed and deployed a training project, showcasing proficiency in MERN stack and cloud tools.
· Collaborated with a cross-functional team as a Full Stack Developer to deliver a client project on time, .
· Currently leading development efforts for a payment aggregator client.
· Earned AWS Cloud Practitioner certification, solidifying cloud expertise and enabling seamless cloud-based deployments.
· Thrived in a fast-paced, collaborative environment, contributing to the successful completion of 3 major projects within strict deadlines.

PROJECTS

note-it
Blazeclan Technologies · October 2022 - November 2023

· Developed a feature-rich MERN stack web application, incorporating user authentication and authorization using JWT for secure login. Utilized Bootstrap to design a visually appealing and responsive frontend.
· Designed and implemented a task management system enabling users to create, monitor, and delete tasks, showcasing strong frontend and backend development skills.
· Leveraged MongoDB and Express.js for efficient data storage and RESTful API creation, ensuring seamless communication between frontend and backend components.

Booking.com Clone
April 2023 - May 2023

· Developed a Booking.com clone using the MERN stack, showcasing full-stack proficiency.
· Designed and implemented user authentication, ensuring secure access to the platform.
· Utilized dynamic data rendering to enable seamless search, viewing, and booking of accommodations.
· Demonstrated strong problem-solving skills and user-centered design in creating a feature-rich and intuitive application.

Reflective Jounral
February 2023 - March 2023

· Reflective Journal is a user-friendly web application designed to offer a dynamic platform for users to create, manage, and share their personal blogs.
· Leveraging the power of modern technologies, the application utilizes React for the frontend, Node.js with Express for the backend, and MySQL for the database. This technology stack ensures a seamless and efficient user experience.
· The Reflective Journal application showcases full-stack development expertise, combining React for responsive user interfaces, Node.js for server-side logic, Express for robust API development, and MySQL for data storage, retrieval, and management.

EDUCATION

BTech - Electronics
MIT Academy of Engineering · 7.63 · Pune, India · 2022

CERTIFICATIONS

AWS Certified Cloud Practitioner
2023

SKILLS

JavaScript | NodeJS | React | MongoDB | MySQL | NestJS | Postgres | MySQL | AWS | GCP | TypeScript | NextJs
